Objective

As a dedicated final year Computer Science student, I strive to apply my problem-solving skills, creativity and technical knowledge to build innovative projects and scalable solutions. I am committed to continuous learning and growing in the field, aiming to make a meaningful impact in the tech industry.

Skills

Programming Language: C, C++, PHP

Web Development: HTML, CSS, JavaScript, React.js, Express.js, Node.js, Laravel, Bootstrap

Database Management: MySQL, MongoDB, PhpMyAdmin

Core CS Subjects: Data Structures and Algorithm (DSA), Object Oriented Programmings (OOPs), Database Management System (DBMS), Computer Networks, Operating Systems

Developer Tools: Visual Studio Code, GitHub, Git, Apache NetBeans

Soft Skills: Problem Solving, Teamwork, Adaptability, Quick Learner

Work Experience

AK Software Solutions, Dehradun | PHP Laravel Developer Intern

December 2025 – April 2026

- Working on multiple real-time web projects using **PHP (Laravel Framework)**.
- Developed and maintained backend modules including authentication, CRUD operations, and role-based access.
- Designed and optimized relational databases using **MySQL**.
- Implemented REST APIs.
- Debugged and resolved production-level issues, improving system efficiency.
- Collaborated with team members to enhance project functionality and user experience.

Education

College of Engineering Roorkee (Uttarakhand Technical University)

2022-Present

Bachelor of Technology in Computer Science | Current CGPA: **8.1**

Greenway Modern Sr. Sec. School, Uttarakhand, India

2021-2022

XII | PCM | CBSE | **93.4%**

Greenway Modern Sr. Sec. School, Uttarakhand, India

2019-2020

X | CBSE | **96.6%**

Projects

Library Management System WebApp (Java Swing, MySQL, Apache NetBeans)

[Github](#)

- Developed a desktop-based library management system with GUI built using Java Swing with MySQL database.
- Enabled **real-time book issuing and returning** with **statistics and fine calculations**.

Virtual Herbal Garden Website for AYUSH Sector (HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Three.js, React.js)

[Github](#) [Live](#)

- A **full stack web application** to explore medicinal plants via **3D models**.
- Implemented **search, filter, theme-based navigation and RESTful APIs** to enhance accessibility and learning.

Real-time News Application (HTML, CSS, JavaScript, News API)

[Github](#) [Live](#)

- A dynamic **category-based** news application fetching **real-time data using API**.
- Display real-time updates **filtered by country and category**.

Accomplishments

- Top 1 percentile** in **Naukri Campus Young Turks 2025** – [View Certificate](#)
- Solved a total of **350+ DSA** questions on **LeetCode** and **GeeksForGeeks**
- Member of College's **D-Coders Squad**
- Volunteered **National Level Hackathon** organized by College of Engineering Roorkee | 2022
